## Refractories in Ladles – Insulation / Covers / Lip Ring Construction

26th June 2024 5pm–8pm BST

**Location: Alkegen Offices, Alderley Edge, SK10 4TG**  
Online attendance available.

### Speakers

#### **Leandro Colombo**

##### **Alkegen Global Market Sales Manager – Steel & Foundry**

Leandro will present on one of his areas of expertise which is the construction of lip rings on steel ladles. Over the last few years and together with major steel manufacturers Leandro has helped to develop a lip ring construction which last 5-10 times longer than a conventional construction and can be installed in a matter of hours by a small team.

#### **Devran Tulunay**

##### **Alkegen Sales Manager ITM for Turkey, UK, Greece, Israel and Turkic Republics**

Devran is experienced in Steel applications such as ladle back up insulation, ladle cover insulation, tundish cover applications, reheating furnaces and galvanizing lines.

He will present on Ladle backup insulation, tundish insulation and ladle tundish covers within the current expectation of CO emissions and energy saving.
